Education

B.Tech in Computer Science and Engineering (Cybersecurity & Digital Forensics) 2022 – 2026

- VIT Bhopal University, Madhya Pradesh
- CGPA: 8.65 / 10

Class XII – CBSE 2020 – 2021

- S.R. Public School, Patna, Bihar
- Score: 77%

Class X – CBSE 2018 – 2019

- Seth M.R. Jaipuria School, Varanasi, Uttar Pradesh
- Score: 89.4%

Project Experience

Static Malware Analysis Using FLARE VM Oct 2023

- Configured FLARE VM on VirtualBox and established secure lab for malware analysis.
- Analyzed 10+ ransomware samples to detect behavioral patterns and embedded indicators.
- Leveraged PeStudio to inspect PE headers, imports, strings, and digital signatures.
- Documented findings in a report highlighting common malware traits and anomalies.
- **Tech Stack:** FLARE VM, PeStudio, VirtualBox, Windows Sandbox

Malware Analysis and Reverse Engineering Using Ghidra Mar 2024

- Reverse engineered 5 CrackMe binaries using Ghidra to extract hardcoded passwords and algorithm flow.
- Demonstrated skills in control flow graph analysis, decompilation, and string references.
- Practiced static analysis to identify obfuscation and bypass logic validation checkpoints.
- Analyzed x86 disassembly to manually trace program logic and reveal hidden routines.
- **Tech Stack:** Ghidra, Assembly (x86), Static Analysis Tools

QuizHub – Dynamic Quiz Engine Feb 2025

- Designed a responsive quiz platform using HTML, CSS, and JavaScript with adaptive difficulty logic.
- Implemented 6+ categories, real-time timer, score tracking, and 3 user lifelines.
- Integrated 500+ curated questions with randomized display and persistent scoring features.
- Deployed system locally for user testing and validated performance with varied inputs.
- **Tech Stack:** HTML, CSS, JavaScript, JSON

Certifications & Training

- **MERN Full Stack Certification Program** – Ethnus, Apr 25, 2025
ethnus.com/certverify — Verification Code: T2GGRDQH
- **IBM Blockchain Developer and Blockchain Fundamentals** – IBM Cognitive Class
Blockchain Developer — Blockchain Fundamentals
- **Cyber Physical System** – NPTEL, May 2024 (Elite Certified)

Technical Skills

Programming Languages: Java, C++, HTML, CSS, JavaScript

Security Tools: Ghidra, PeStudio, VirtualBox, Wireshark

Core Competencies: Cybersecurity, Malware Analysis, Reverse Engineering, Secure Web Development

Extracurricular Activities

- Secured 1st position in a district-level scholarship test among multiple schools, recognized for academic excellence.
- Appointed School Sports Captain; led 4 inter-school events and 100+ participants.
- Represented cricket team in 6 zonal tournaments, contributing to 2 title wins.
